FOR IMMEDIATE RELEASE

NOVX SYSTEMS INC. WELCOMES DONALD D. MOONEY TO ITS BOARD OF DIRECTORS

Markham, ON, May 3, 2007 – NOVX Systems Inc. is pleased to announce the addition of Mr. Donald D. Mooney to its Board of Directors. “I am very excited to have Don join our Board as we begin to launch our products worldwide.” said Dr. Tino Alavie, President and CEO of NOVX. “His expertise in medical devices, especially as they relate to strategic planning and marketing of diagnostic products, will help NOVX meet its objectives as a leader in automated on-site screening solutions.”

Mr. Mooney is the President and Chief Executive Officer of ProteoGenix Inc., a company developing IVD products for the fetal-maternal health market. He has 30 years of experience in strategic planning and marketing from both medical device and diagnostic companies.

About NOVX Systems

NOVX Systems is a leading-edge developer of healthcare productivity solutions, with an initial focus on addiction medicine. NOVX has a Health Canada Class III Medical Device Licence for the sale of its iMDx™ Analyzer, a testing platform that enables fast, secure and reliable screening for drugs of abuse and adulterants at the point-of-collection. With the addition of PatientVu™/ClientVu™ – electronic case management software – NOVX offers a complete and powerful solution in addiction management.

NOVX technologies combine state-of-the-art photonics, innovative chemistry and customer focused design with a comprehensive data-management interface. The company has an extensive portfolio of optical, electronic, algorithm and chemically related patents pending.
